Take up one idea. Make that one idea your life; think of it; dream of it; live on that idea. Let the brain, muscles, nerves, every part of your body be full of that idea, and just leave every other idea alone. This is the way to success, and this is the way great spiritual giants are produced.

Catch Them Young

is the driving principle of Surya Foundation embodying the belief that today's child is tomorrow's Bharat! The youth development Program is designed to engage young minds during their formative years, providing them with the skills and values that will shape them into responsible citizens of the future.

Surya Foundation has conducted thousands of Personality Development Camps (PDCs) across the country, transforming the lives of lakhs of young people. These camps go beyond traditional skill-building by fostering leadership qualities, instilling patriotism, and strengthening character. They also equip participants with practical skills, including proficiency in various sports, group travel logistics, knowledge of Bharat's rich history and promising future, effective communication, and active community involvement. Each child leaves the camp with a well-rounded perspective and a renewed commitment to make meaningful contributions to society.

Trainers Training Camp & Surya Scholarship Scheme

From the camps held across the country, some talented children are selected for the **Trainers Training Camp** for whom advanced training of personality development and tour of Bharat is conducted. These children later play an important role as trainers in future personality development camps.

Another initiative for the youth is **Surya Scholarship Scheme** in which talented children are selected from rural areas, and scholarships are provided to them every year enabling them to build a bright future.
